- Easily track and check status & location of all your fleet over a map.
- Easily figure out which vehicles are active and which are inactive.

2. CREATE & MANAGE ROUTE PLAN FOR VEHICLES

Create & customize route plan for each vehicle separately. 7Fleet Pro provides very easy drag & drop + checkbox style route plan creation options. Also you can assign the route to other vehicles easily.

- Create a custom route plan for each vehicle.
- Manage & update the route plan easily from dashboard.

3. DRIVER APP WITH ROUTE MAP

7Fleet Pro suite comes with a driver mobile app as well. Using this app drivers can easily navigate using the maps which shows the right directions towards their destination along with ETA.

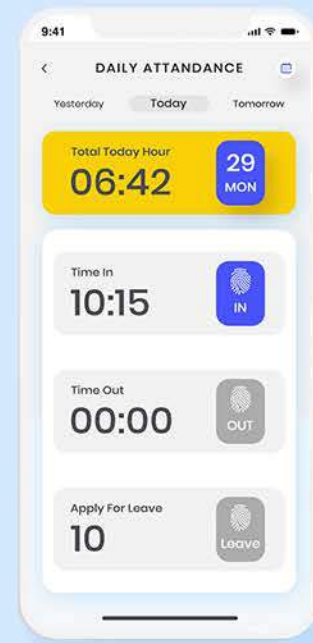

- Driver app with route map navigation to help drivers navigate.
- Improves drivers performance and decreases un-necessary fuel consumption

4. DRIVER ATTANDANCE MANAGEMENT SYSTEM

The 7Fleet Pro Driver app also has feature to enable the drivers in entering their attendance. The attendance can be checked by the suprtvisor or admin from the dashboard.

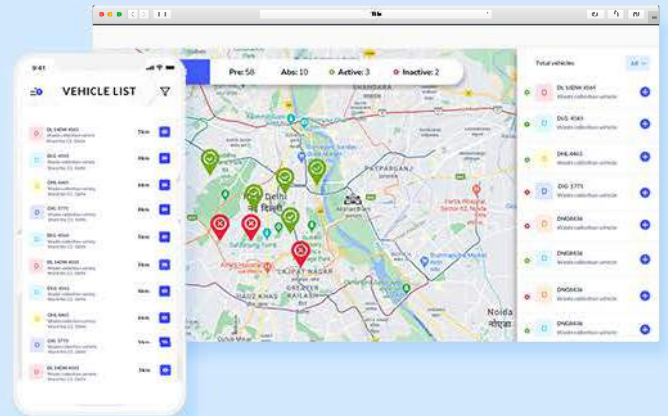

- Authentic & easy way to check the in-time & out-time of all the fleet drivers.
- Eases the process of leave calculation & payroll calculation.

5. SUPERVISOR & MNAGAMENET APP

7Fleet Pro has been designed in a way that the supervisors can track, manage & check the entire fleet from anywhere. 7Fleet Pro suite has a supervisor app using which all the fleet can be tracked & managed.

- Easy to use android app to check fleet's location and their route performance.
- Helps supervisors to check and track any vehicle from anywhere leading to more control & improved performance.

6. ROUTE PERFORMANCE REPORTS

For supervisors one of the most important thing is checking the performance of each vehicle and their route performance. Using 7Fleet Pro you can easily check & export the report of each vehicle.

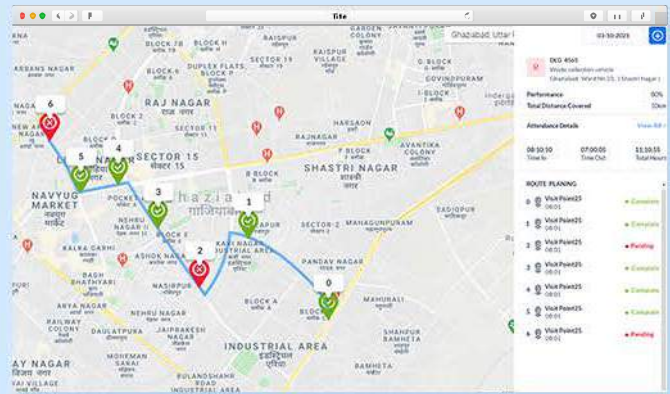

- Easily check the assigned vs complete halt points of each vehicle on assigned route.
- Easily export the complete route report in excel.
- Check historical performance of each vehicle.

- Detailed reporting features to help supervisors improve efficiency & performance.
- All reports can easily be exported to excel for further study.

8. IMPORTANT INSIGHTS & ANALYTICS

7Fleet Pro collects more than 30 data points of each vehicle & driver. All these information are passed to AI(Machine Learning) models to show deep insights and analytics. This helps in improving the overall performance of fleet.

- AI based insights and analytics to help you take better decisions.
- Interactive dashboard to enable you access important information quickly.

9. FLEET GEOFENCING

Using 7Fleet Pro geofencing feature setup locations/points for your crew to reach & complete the assigned task. Using geofencing you know when a vehicle reached point A and when it left.

- Get alerts when a vehicle reached a point & when leaves.
- Get the time the vehicle spent at the location.
- Detailed reports with time and location data.

10. COMPLETELY DYNAMIC FEATURES

7Fleet Pro provides you with a set of dynamic features. From fleet creation to setting up routes to assigning drivers to fleets you can do all this from your dashboard.

- Easily create users, vehicles, teams, hierarchies, route plans & more.
- The whole system is designed in a way that a small team can also use it and a big enterprise fleet can also use it.

11. CREATE TEAMS & HIERARCHY

You can easily create teams and add users to them and assign supervisors. This will enable the supervisors to only access their teams and not other teams.

- Create teams by adding users/fleet and assign supervisors to them.
- Create roles and assign permissions & access to each role
- Role based access enables team members to only view information which is relevant to them.
